TOURISM

Company example:

A boutique consulting firm, specialized in the financial sector, specifically banking, means of payment and fintech. They work with Spain's leading banks, as well as with other relevant players in the financial sector, although they also help smaller firms, including startups, concerning various levels of development.

The startup ecosystem is one of their main interests, therefore they have created an internal Startup Lab to develop and test ideas, making use of their own experience with startups, clients and methodologies. The ideas developed come from a wide range of different sectors, and aim to solve different purposes.
